FOR BETTER ROSES!

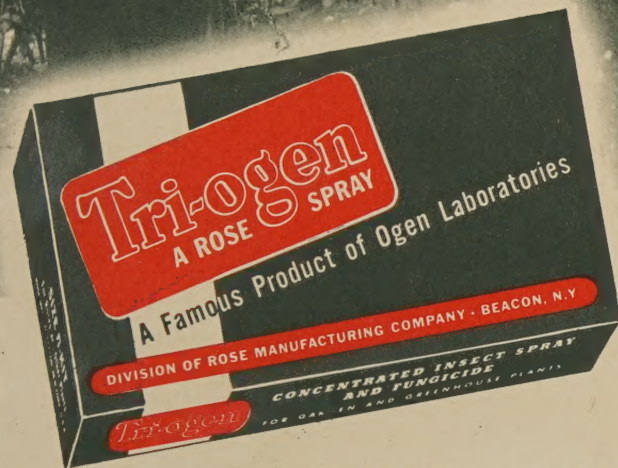

TRI-GEN

3-WAY SPRAY — CONTAINS FERMATE

Better than ever

"For all Practical purposes I have found TRI-OGEN best."

"Yes, Dr. Westcott, I too have found TRI-OGEN best. I use both TRI-OGEN Spray and TRI-OGEN Dust."

DIRECT OR AT YOUR DEALER

TRI-OGEN Spray and TRI-OGEN Dust are featured by practically every seed and hardware store in the United States. Get yours from your local dealer or, if you prefer, send your order direct. Just indicate your choice on the postpaid postal card, tear out, and mail today.

FIRST CHOICE OF THESE AUTHORITIES

GEORGE A. SWEETSER, Wellesley Hills, Massachusetts. Landscape Designer and Horticulturist, and President, American Rose Society, says: "As you know I have used TRI-OGEN myself and have bought it for others, and have found it a very satisfactory product. * * * One of its special features is that it not only does not stain the foliage but actually improves its appearance."

DR. J. HORACE McFARLAND, Harrisburg, Pa., President Emeritus, American Rose Society, says: "Probably the Harrisburg Municipal Rose Garden is the best comment on TRI-OGEN possible to get. Plants treated from the very beginning with TRI-OGEN have given a steady and astonishing result."

MRS. JON OTTO JOHNSON, Gordonsville, Virginia, Rose Specialist and Lecturer, says: "Every visitor here, after speaking of the beauty of the roses, exclaims 'and what foliage! What do you spray with?' The invariable answer: 'TRI-OGEN.' * * * 'First Aid for the rose grower'."

MRS. CLIFFORD B. SMITH, Kansas City, Missouri, Lecturer and Consultant Kansas City Rose Garden says: "We are using TRI-OGEN for spray. It is the best ever and a joy not to have the roses eaten up with aphids and worms and have the leaves drop off with Black Spot. The foliage in our own garden is as clean and as beautiful as can be."

MRS. IVA NEWMAN, San Mateo, California, Lecturer and Rose Grower says: "TRI-OGEN is being thoroughly tested at Rose Acre on many varieties of roses including one very susceptible to mildew. TRI-OGEN has given these varieties the best protection of any spray tried thus far."

Across the Nation, Authorities Agree!!

TRI-OGEN

IS THE BEST COMPLETE SPRAY FOR YOUR ROSES
IT IS BETTER THAN EVER—NOW CONTAINS **FERMATE**

When you use TRI-OGEN your confusion about Rose sprays is ended. A 3-way plant treatment, TRI-OGEN can give your plants maximum (1) insecticide protection against both chewing and sucking insects and (2) fungicide protection against both powdery mildew and black spot. By controlling these ailments, whole uninjured leaves enable the plant to breathe properly. And, at the same time, the plant absorbs (3) TRI-OGEN'S stimulants.

FINER BLOOMS — The big secret of fine Roses, of course, is to keep foliage free from insects and disease—and that's what TRI-OGEN Spray or TRI-OGEN Dust gives them. Because TRI-OGEN, as Rose Authorities agree, is the famous 3-way treatment that does the job alone!

FEWER SPRAYS — Being the "one that does all" TRI-OGEN'S 3-way treatment cuts your spraying time to a minimum. With TRI-OGEN you need spend only a few minutes once a week or 10 days. Thus confusion ends and confidence begins when you use TRI-OGEN.

BIGGER SAVINGS — No "special" insecticides and fungicides are needed when you use TRI-OGEN. It is economical, too. The contents of the package consist of highly concentrated liquids that make over 100 times their volume when mixed with water for spraying. Nothing else required — and remember TRI-OGEN does the job alone.
